WHEN

OUR TOY RUBBER SOLDIERS
COME MARCHING HOME . . .bringing all the Auburn
Products with them

. . . we will extend to our customers the same spirit of helpful service that won loyal friends in the past. Friends who graciously accepted the many curtailments imposed by conditions of war.

When peace returns we are keyed to expand our previously comprehensive line of rubber toys, soles, heels, taps, fly swatters and other popular items to meet all requirements of eager postwar markets . . . a bigger and better Auburn Line definitely in step with the faster tempo of days to be.

Now Auburn equipment, manpower and skill are devoted to shaping the tools of victory. We are proud of that and would not have it otherwise.

But soon, we hope, the sun will rise on an Auburn Plant busy once more with toy soldiers that will tramp into the hearts of glad children . . . busy again producing handy domestic, everyday things designed to make life more liveable.

Until Victory is ours, we must of necessity put our production emphasis on meeting war needs—and strive earnestly to do our part in making an early Victory possible—that our regular established lines may again be available for our trade.

"Wintite" SASH LOCK

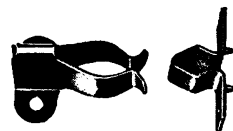

Patent No. 2,151,219

No rattle, no draft because eccentric action draws upper and lower windows tightly together providing air-tight joint. Straight pull eliminates side slip. Tamper-proof draw-bar locks in place—cannot be moved without turning handle. Made of heavy wrought steel or brass and supplied in standard finishes.

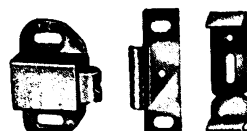

Patent No. D126,567

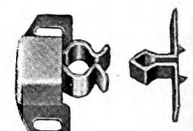

NEW SASH LIFT
The first improvement in sash lift design in generations. Streamlined for beauty, engineered for strength.

No. E3680 "Dorfast"
Improved construction and special tempered steel prevents breakage. Prongs locate strike automatically on door.
Bright Zinc Plated.

No. E3655 "Roll Point"
(Reg. U. S. Pat. Off.)
Catch with "S" and "T"
Strikes for Flush and Offset Doors.
Bright Zinc Plated.

No. E9700 "Flexigrip"
Exclusive "floating" fingers with lifetime conical spring action. (Patent applied for)
Bright Zinc Plated

*Kromoid—a highly satisfactory alternate finish for Chromium.

Relying Upon Winchester is an Old American Custom

Normally in this space we would be listing, for your reference, a condensed catalog of the sporting arms and ammunition offered by Winchester. But now, as you are well aware, we are unable to furnish any of these products to you and your host of sportsmen friends.

We know you share our pride and satisfaction in the fact that the skill and craftsmanship which made Winchester products world famous are now making a substantial contribution to Victory.

When the war has been won Winchester will continue to give the trade and sportsmen outstanding new models of shotguns and rifles—and important new developments in cartridges and shotshells. Winchester experience and knowledge will again place at your disposal the most modern, most complete line. It will enjoy the preference of American sportsmen, just as it has for more than three-quarters of a century.

WORLD STANDARD AMMUNITION

77
Years of
Knowing
How

Today Winchester is making notable contributions to the war effort. The new Winchester Carbine, officially called the U. S. Carbine, Caliber .30 M1, provides greater fire power and accuracy, longer range and is faster in action than the automatic pistol. It was originated, designed and engineered by Winchester.

We are also making the U. S. Garand semi-automatic rifle in ever increasing quantities. In fact, our long experience

has made it possible to cut the unit cost to Uncle Sam to less than one-half the original contract price!

Winchester is also turning out millions on millions of military cartridges for our armed forces.... When peace is here again, all Winchester craftsmanship, research and wartime experience will center in the production of even finer sporting arms and ammunition.

STANLEY

1843

1943

For one hundred years STANLEY HARDWARE has helped to build the homes, schools, institutions and factories which have made America great . . . made it worth fighting for.

Today, Stanley Hardware has gone to war. The skill and facilities which won for STANLEY HARDWARE a place on the shelves of practically every hardware store, are now being devoted to the task of helping to protect what we helped to build. The Stanley Works, New Britain, Connecticut.

WARM MORNING...the COAL Heater

that Has Made HISTORY!

NEW PATENTED CONSTRUCTION Wins Nation-wide Sales!

Salesmanship alone can't do it. Advertising alone can't do it. A product must "have something" to run its sales up into the hundred thousands in three short years!

That's what the WARM MORNING Coal Heater has done... has established an amazing new high in stove sales. And the reason? It has "that something"... *revolutionary new construction features* that produce amazing heating results.

These modern improvements, publicized through advertising and salesmanship, have made the name "WARM MORNING" almost a household word the length and breadth of the nation.

Remember these few of the many salient points of the WARM MORNING Heater and you have the answer to its phenomenal sales:

- The Only Heater of Its Kind in the World • Holds 100 to 200 Pounds of Coal • Semi-Automatic, Magazine Feed • Holds Fire 24 to 36 Hours in Cold Weather; several days in Mild Weather • Burns Any Kind of Coal, Coke, Briquets • No Clinkers—only fine Ash • Patented Features Assure More Complete Combustion—far Superior Radiation—More Sustained Heat.

Ask Your Wholesale Distributor about these remarkable Heaters.

Profit with Shelby's **PROVIDE A RIDE** program

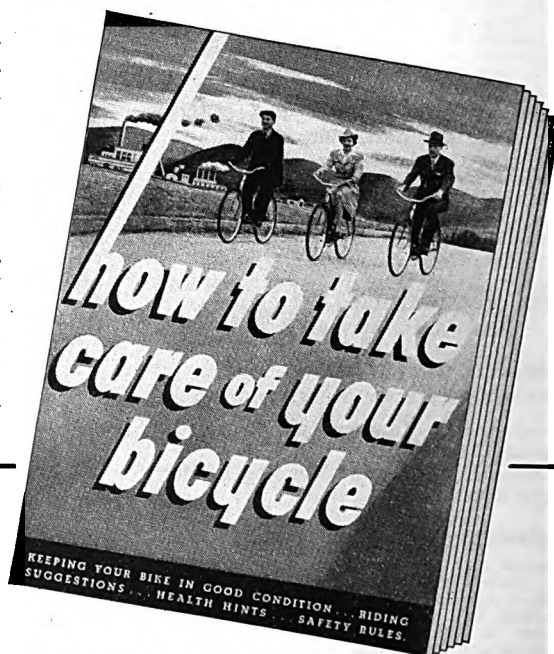

How? You'll find the answer in Shelby's 4-point wartime program outlined below. Adopt this workable plan to help provide essential transportation for civilians, to bring you paying business now and good-will for future sales!

1. Sell bicycles to every eligible prospect! Every bicycle in use saves critical metal, fuel and rubber. Keep rationing forms on hand—help customers fill them out.
2. If you have service facilities, promote your store as "repair headquarters" in your community. Keep bicycles "at the front" now when they are so badly needed.
3. If you have too many bicycles, or if you need more than you can get, write us. We will act as "clearing house" between retailers who are overstocked and those who can sell more than they can get.
4. Promote conservation! Distribute the booklet "How to Take Care of Your Bicycle" to every cyclist in your community.

Take Advantage of This **FREE BOOKLET** Offer . . .

This Free booklet helps bring trade to your store now, builds good-will for future sales. Tells cyclists how to make their bicycles last longer, gives suggestions for safe, comfortable riding. Thousands have already asked for it. Send today for **FREE** quantity you need. Available whether you sell Shelby bicycles or any other make. Absolutely no obligation.

EAGLE CANS AND OILERS

For profitable sales and repeat business

TWO-IN-ONE GASOLINE AND OIL CAN with detachable, flexible spout, and handy-grip-cap. Used for filling, for transporting, or for storing. In 2½ and 5 gallon capacities.

SOLDERLESS TRU-BLUE OILERS with seamless drawn heavy steel bodies. Carbon steel bottoms sealed to bodies. Most economical oiler for mills, mines, factories, foundries, garages, etc.

NEW DANDY ASSORTMENT contains one dozen assorted oilers. ½ pint capacity (5" straight spout), ¾ pint capacity (9" bent spout), ½ pint capacity (5" straight spout) in equal quantities.

ECONOMY ASSORTMENT contains one dozen Harvester or Utility Oilers. Seamless drawn bodies—genuine double seamed bottoms, reinforced insert type spouts. Enamelled red, green, and blue, in equal quantities.

NEW MIDGET ASSORTMENT—Small steel oilers with reinforced insert type spouts. The long spouts get those hard-to-reach places on many articles that require a small amount of oil.

HANDY - GRIP - GALVANIZED GASOLINE AND OIL CANS are leakproof. They are made from standard gauge prime sheets. They have triple lock body seams and seamless drawn spout with spout cap. In 1, 2, and 5 gallon capacities.

WELDED STEEL CANS for oil and gasoline. Built for heavy duty. Seams are acetylene welded. Handy-Grip cap. Guaranteed leak-proof. Tested under air pressure. 1, 2, and 5 gallon capacities.

RAINBOW DISPLAY contains ½ dozen Improved Hydraulic Pump Oilers with welded steel spouts. Enamelled red, green, and blue in equal quantities. Popular ¾ pint capacity. Fast moving merchandise.

COUNT ON THESE POPULAR PRODUCTS TO BOOST YOUR POST-WAR BUSINESS

U-S-S AMERICAN FENCE

Busy farmers want fence they can put up once and forget about. They know they can depend on American—day or night—in any weather—to hold all kinds of livestock. Farmers know it lasts. Remember, there's more American Fence in use than any other brand. It must be good!

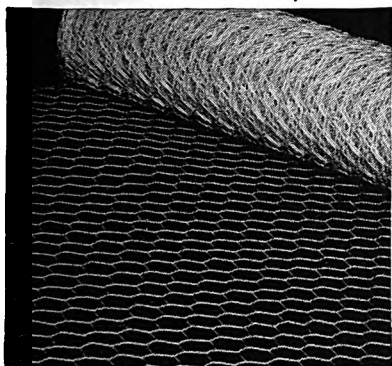

U-S-S AMERICAN BARBED WIRE

Miles of barbed wire have been furnished to the armed forces. As a result, little barbed wire has been available for our farm customers. But when there is again plenty of steel to be had, we will be producing the popular types of U-S-S American Barbed Wire.

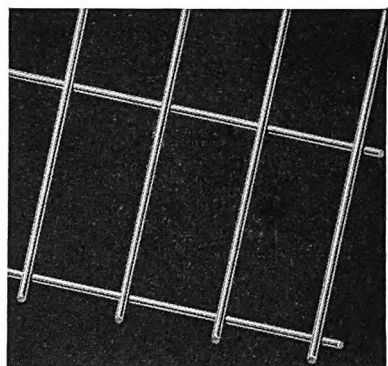

U-S-S AMERICAN STEEL POSTS

These sturdy, time-saving posts will be more popular than ever after the war. For farm labor shortages have made farmers highly conscious of the value of their time. They'll appreciate the speed with which American Steel Posts can be driven to a firm set.

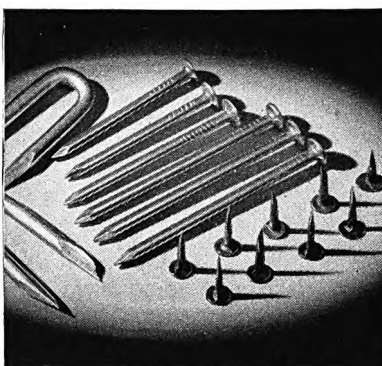

U-S-S AMERICAN POULTRY NETTING

These nettings have been good profit producers for dealers for years—and will continue to be. Over 80% of American farmers raise chickens—that means a big market for poultry netting. The popularity of U-S-S Hex-Cel Poultry Netting and American Straightline Poultry Netting can help you get this business.

U-S-S AMERICAN WELDED STEEL FABRIC

There are many uses for this product, which will mean profitable business for dealers after the war. It is ideal for fur farming, turkey raising, poultry floors, pens, feeding fence and many other purposes. Comes in several sizes and gauges of galvanized wire, expertly welded for strength and long life.

OTHER U-S-S AMERICAN PRODUCTS

Nails, staples, wire stays, bale ties—all these items add up to good volume for you in normal years. And when you buy from one source of supply you can combine these items with fence and posts to make up carload orders and save yourself some money. Keep this in mind for bigger post-war profits.

Free Book on Fence Care

FOR DISTRIBUTION TO
YOUR CUSTOMERS

This book was prepared for the many farmers who have to get along as best they can with the fences they have. It's packed with helpful, practical suggestions. Just the thing to build good-will for you. It has already proved popular. Thousands of requests have been received. If you haven't a supply, write us. They're free.

STAR

HACK SAW BLADES

Your discriminating hack saw blade buyer looks to the STAR Unbreakable Special Flexible blade for freedom from hack saw worries and speedy, faster work on his war-time production jobs. Be sure that he looks to you as his source of supply for he is the "Priority-Buyer" who means steady

hack saw business for you. Because it cuts like an all-hard and eliminates breakage and tooth stripping, STAR Unbreakable Special Flexible is the hack saw blade that will hold his trade for the duration—and long after priority restrictions are removed. Once a STAR user always a STAR user.

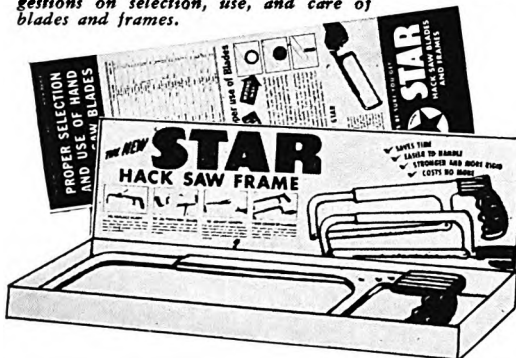

and a NEW kind of HACK SAW FRAME

Made of heat-treated spring steel, the STAR Frame is the strongest rigid adjustable frame on the market. Cam action lever lock eliminates screws and other loose parts—puts correct tension

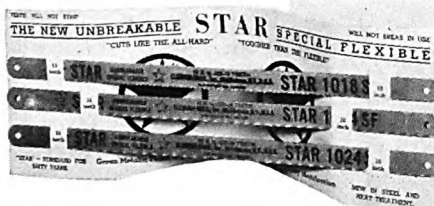

on blades automatically — makes replacement of blades a matter of seconds. Available now with pistol grip only. Sells for no more than conventional adjustable frames.

Reverse of Display Card—contains handy wall chart for user. Covers helpful suggestions on selection, use, and care of blades and frames.

Packed in an ATTRACTIVE DISPLAY BOX

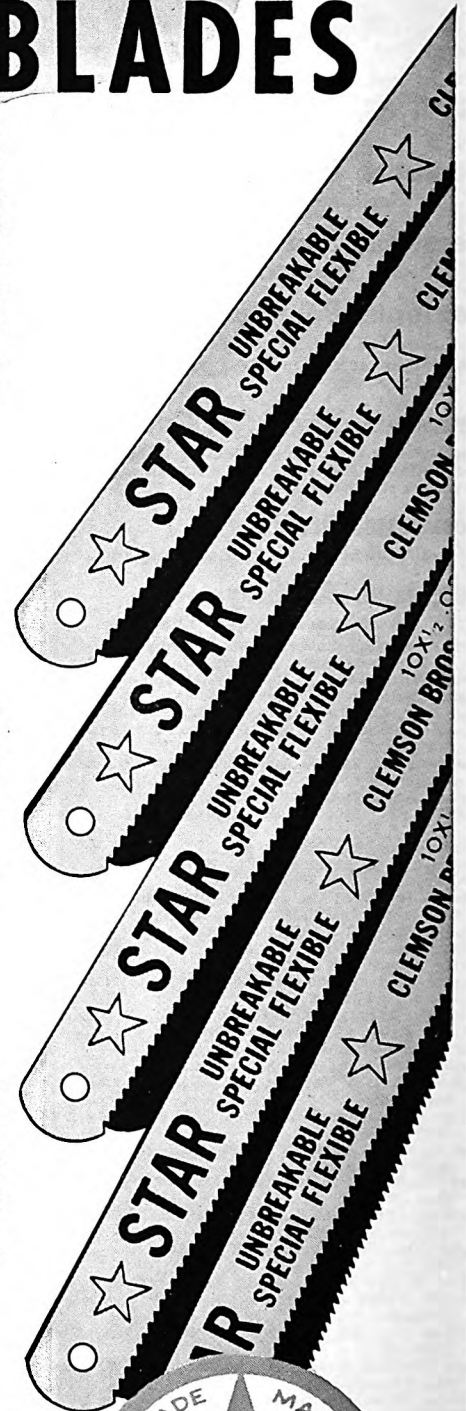

Each STAR Hack Saw Frame is packed with one STAR Unbreakable Special Flexible Blade in a sturdy, metal reinforced cardboard box. A card, enclosed, can be set up on end (see illustration) to convert the box into a sales-stimulating counter display.

DISPLAY CARD

This attractive two-color display card comes 25 to the carton. It is known as the All Purpose Assortment, emphasizing the Special Flexible Hand Blade.

Get in touch with your Jobber—or write direct for further details on any or all of these STAR profit makers.

THESE 5 GUIDES

Give Quick Answers to Your Wartime Service Problems

Within the covers of these five helpful Conserve Maintenance Guides is complete information on the servicing of Westinghouse major appliances. So well organized is all the material, so concise and easy to understand, that even the most inexperienced hand soon becomes a skilled service man by following the instructions in these guides.

Your oldtime service people will also find these

books invaluable as ready reference manuals. For, in addition to the detailed instructions there are 800 photographs which explain pictorially how to do every service job. The first four books—Basic Electricity, Refrigeration, Ranges, Laundry Equipment — are priced at \$1.00 each. The book on Water Heaters is priced at 50c. You can place your order through any of the Westinghouse Distributors listed below.

H & A "BLUE STAR"

No. 1 JUTE ROPE

Manila and Sisal Rope have gone to War. All of it is reserved for the Army, Navy, Maritime Commission and other important military requirements.

For our civilian customers, we offer our "BLUE STAR" No. 1 JUTE ROPE—made from the best obtainable Jute fibre. It is lubricated and treated to make it water-repellent and mildew-resistant.

DREADNAUGHT NO. 2 ROPE (Jute and Istle Fibres)

Also lubricated and treated.

Remember these—they'll be available again after Victory

Quality is not soon forgotten. Folks will continue to ask for H & A "BLUE HEART" and "BUCKEYE" Pure Manila Rope for a long time to come. When the victory is won and the highest grade of Manila fibre is again available, we'll again offer

H & A "BLUE HEART" Pure Manila Rope

Rope should not be subjected to a working strain of more than one-fifth of the indicated tensile strength.

A 4-strand rope has a tensile strength about the same as 3-strand and a yardage of about 90% of 3-strand rope of the same diameter.

The H & A Complete Line of Cordage Also Includes:

Transmission Rope, Drilling Cable, Lariat Rope, Yacht Rope, Fishermen's Rope, Twisted and Braided Jute Packing, Jute and Hemp Twines, Hard Fibre Twines, Lath Yarn, Tarred Marlines, Plumbers' and Marine Oakum. All manufactured to the high standards for which H & A products are famous.

RUST-I-CIDE THE *Liquid* RUST REMOVER

REMOVES THE RUST AND SAVES THE METAL

ACTUAL SIZE

A MORE appropriate hardware item, under today's conditions, is not available. RUST-I-CIDE fills many needs—not only does it remove rust from many articles that must last for the duration, it also removes stains from vitreous enamels. It is an excellent chromium cleaner. RUST-I-CIDE quickly loosens tightly rusted bolts, nuts and springs. Removes corrosion and verdigris from brass, bronze and copper. RUST-I-CIDE has been sold for over twenty years. It has a thousand and one uses

around the farm and home and it is inexpensive. RUST-I-CIDE is a rapid seller, you can get all you want NOW and it carries a nice profit for you. It also helps to sell touch-up enamel, paint, wax and other items.

RUST-I-CIDE is available in 4, 8, 16 oz., quart and gallon bottles. Retail at 25c, 45c, 75c, \$1.20 and \$3.60* with generous discount to retailers. Call your distributor today; if he cannot supply you, write us.

"How To Do It"
Information For
Crescent Tool Users

No. 12 . . . HOW TO USE CRESCENT SCRATCH AWLS

For piercing holes in any relatively soft material — wood, leather, linoleum, fabric, fibre, etc. — Crescent Scratch Awls should be used as illustrated below, or the point located and the handle then struck a smart blow with the palm of the hand. Carpenters use this tool extensively for starting screws in soft wood.

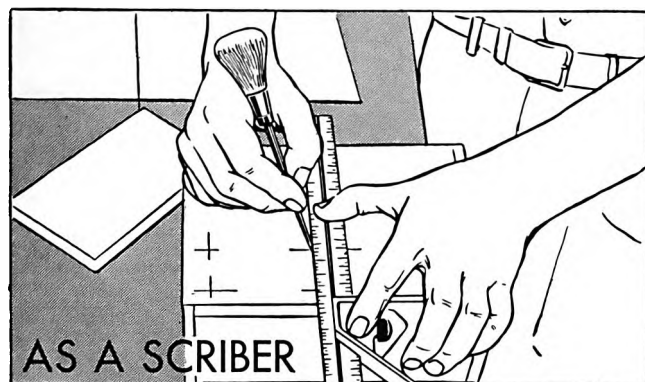

When working with light sheet metal, the Crescent Scratch Awl may be used as a Prick Punch or for piercing holes. Used as a Prick Punch, a hand or light hammer blow is required; for piercing holes, either a blow or steady hand pressure may be used. Use a wood block beneath the metal.

As a drift or driftpin for lining up bolt or rivet holes in light work, the Crescent Scratch Awl is very useful. Its sharp-pointed, tool-steel blade provides a gentle taper from 0 to 1/4 inch, making it an ideal tool for bench and other light assembly work.

DIETZ LANTERNS

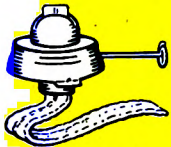

Digitized by Google

DIETZ LANTERNS ARE MADE OF SCARCE MATERIALS

—here's how your
customers can keep
theirs in good service.

Always keep filler hole covered—if cap is lost, replace it. Occasionally, when fuel is low, drain out the fount to remove any accumulated moisture to prevent pitting, leaks, etc.

Keep wick properly trimmed—replace it when necessary.

To properly trim wick, cut straight across top—trim away any extended or loose threads, nick the corners slightly.

Keep globes clean. Dirty globes reduce visibility. Replace damaged ones.

Don't turn wick too high. This creates soot, clogs tubes, reduces air flow, cuts down candle power, wastes kerosene.

**KEEP A
SUPPLY OF
DIETZ LANTERN
REPLACEMENT
PARTS ON HAND**

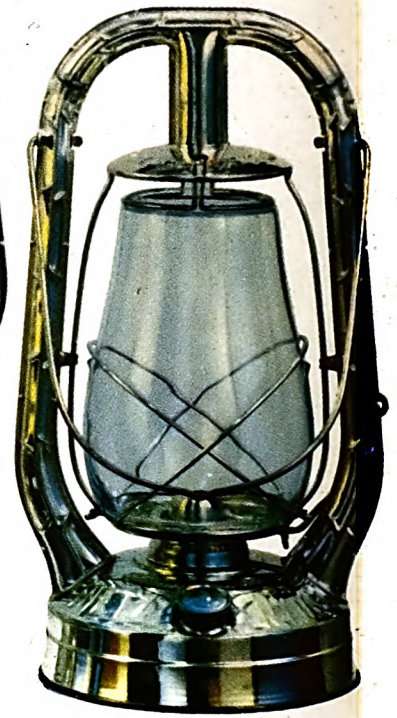

DIETZ Lantern globes and wicks are always steady sellers. We recommend a good stock of globes and wicks, with a smaller stock of burners, and filler caps for maintenance and repair.

DIETZ "MONARCH"
STREAMLINE LANTERN

Stock and sell DIETZ LANTERNS only for those who need them most

Our armed forces, war plants, defense and civilian protection services and those who grow the crops, ride the ranges, and work in our orchards and forests vitally need well controlled, portable light of positive performance. Such groups deserve first call.

Please use good judgment in your sales of DIETZ Lanterns, selling only for essential needs. In this way there will be more to go round for everybody.

The materials used in the manufacture of DIETZ Lanterns, are important in wartime—many are scarce. Therefore, if a customer can repair his lanterns from parts supplied by you, more lanterns will be available for vital needs—perhaps to meet sudden emergencies that come without warning, particularly where illumination may be restricted.

Some changes and substitutions of materials may be made in DIETZ Lanterns, in interest of conservation, but FUNCTIONALLY NO CHANGES have been made. The same high candle power, the same operation, the same long life that have made DIETZ Lanterns dependable for over a century will be faithfully maintained.

The control of flame that permits a choice of abundant portable light, or a low, controlled glow, is a wartime feature of DIETZ Lanterns.

There is a DIETZ Lantern for every essential purpose—greatest economy of fuel consumption with undiminished light. Proven efficiency prevents failure in operation. DIETZ Lanterns burn dry to the last drop without interruption, when properly cleaned and serviced.

CIRCULATOR FIREPLACES

A "heating fireplace" consisting of a complete, properly proportioned metal unit around which any design of mantel can be built. Works like furnace—cool room air travels through grille inlets, over heat generating surface and then through grilled outlets. Built-in damper. Built with and without dome casing and special "Radiant Blades" and in widths from 28 to 52 inches. Write for full details.

WAR COMES FIRST

We're trying to keep all our friends supplied with adequate stocks of MOORE PUSH-PINS and PUSH-LESS HANGERS. But sometimes it just hasn't been possible, due to war needs, manpower and material shortages. If you haven't been able to get as many MOORE products as you need, we ask your indulgence. With us, as with you, war comes first. Rest assured, though, that we are doing everything possible to keep production geared to your needs.

COLUMBIAN VISES

WHEN VICTORY IS OURS, MORE COLUMBIAN VISES WILL BE AVAILABLE FOR QUALITY MINDED HARDWARE DEALERS

COMBINATION PIPE

Columbian Malleable Iron COMBINATION PIPE Vises embody all the features of machinists' vises plus the convenience of reversible, interchangeable pipe jaws. Sizes $3\frac{1}{2}$ " to 6" jaw widths.

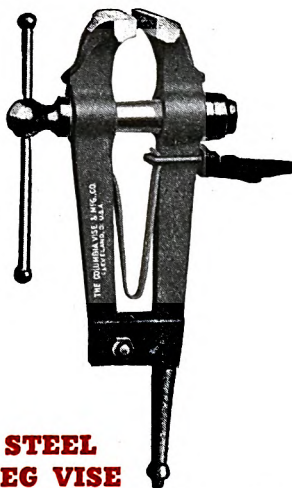

HINGED PIPE

Columbian Malleable Iron HINGED PIPE Vises have self locking unbreakable hooks, tool steel pipe jaws, cold rolled steel screws and handles. Sizes for holding pipe from $\frac{1}{8}$ " up to 12".

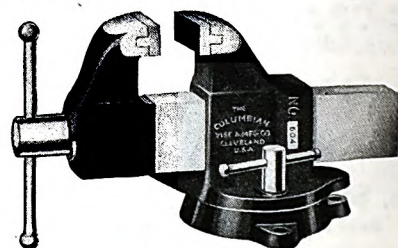

"GROUP OF THREE"

The "GROUP OF THREE" Homeshop Vises give dealers a range of popular sizes (3", $3\frac{1}{2}$ " and 4" jaw widths) to meet the demands of the retail trade. Finished in bright "Columbian Red" enamel with polished jaws and anvil, in attractive display cartons.

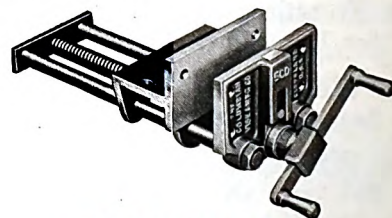

STEEL LEG VISE

Jaws are drop forged from high carbon steel and heat treated to provide hard, tough gripping surfaces. Six standard sizes — 4" to 8" jaw widths.

MACHINISTS'

Columbian Malleable Iron MACHINISTS' VISES are guaranteed unbreakable! In addition to their exceptional strength, Columbian engineering has built into these vises the finest mechanical perfection and special features appreciated by users. Made in all standard sizes — $2\frac{1}{2}$ " to 8" jaw widths.

WOODWORKERS'

Columbian WOODWORKERS' VISES. Both Rapid-acting and Continuous Screw types are furnished in two sizes — 7" and 10" jaw widths both 4" deep. Also smaller sizes for home workshop users.

Illustration shows continuous screw vise equipped with adjustable steel handle — held in position by a tension spring in screw-head. This handle increases speed of operation.

IN endless columns Master Padlocks leave for "active" duty every day . . . tough, dependable, untiring sentries of security . . . spreading out in every direction to take up important wartime guard duty on battlefronts all over the world.

The same strong, dependable security that long ago estab-
lished "Master Made" as a byword of padlock quality is
recognized over and over again by the continuous call for
Master locks in every phase of the war program. Thus
we help to guard the road to Victory . . . looking forward
to the day when once more we can turn our full efforts
to the independent hardware trade — to YOU!

MAZDA LAMP

NEWS

PUBLISHED BY GENERAL ELECTRIC LAMP DEPARTMENT, NELA PARK, CLEVELAND, OHIO

G-E MAZDA F LAMPS HELP 'EM FLY SOONER!

Acres of all-metal AT-11 twin-engine Beechcraft bomber trainers are shown in this night photo of a portion of the final assembly department of the Beech Aircraft Corporation's plant.

HUNDREDS of types of G-E MAZDA lamps are fighting the war on many fronts. Today General Electric MAZDA F (fluorescent) lamps are playing an important part on the war production front . . . by giving workers the light needed to speed production and reduce spoilage and accidents.

Fluorescent lighting in the final assembly department of the Beech Aircraft Corporation's Wichita plant, for example, is helping speed production of Beechcraft Trainers for the Army Air Forces. Work goes on both day and night.

Good lighting is actually adding man-hours to the nation's production lines in thousands of war plants, big and small . . . by helping war workers see better and faster. As a result they tire less rapidly and do more efficient work.

In this "life-test" G-E MAZDA F lamps burn day and night to help assure the high standards set by G-E research.

JULY G-E LAMP AD

This G-E MAZDA lamp ad in the July 13th *Look* and July 19th *Life* gives customers specific ways to get the most from present lighting equipment. Other full-page G-E lamp ads appear as follows:

LIBERTY—July 3rd
NEWSWEEK—July 5th and 19th
POPULAR MECHANICS—July
SATURDAY POST—July 17th, 31st
TIME—July 5th and 19th

Here's what happens when they read G-E lamp ads!

Recently the advertising research organization of Daniel Starch and Associates checked the readership of a typical G-E MAZDA lamp ad, "9 Wartime Lighting Suggestions," that ran in *Life*, *Saturday Evening Post* and *True Story*.

It was the best seen and best read ad in the *Post*. In *Life* it ranked third among all ads in the issue on thorough readership. It was well above the average in *True Story*. They also found that:

90% of the people liked this type of advertising. One third reported doing something about it.

Some of the things they said they did: Cleaned lamp bowls, switched to white lamp shades, moved reading lamp to better position, and rearranged furniture to make each lamp serve two or more people.

G-E "HOUR OF CHARM" HYMN RECORDS SET RECORD

The Hour of Charm Album of Hymns, put out last December by Columbia Recording Company, has topped all record album sales, according to a report just received from this company.

To date more than 327,000 records in albums have been sold. All of which adds further proof of the tremendous popularity of the G-E MAZDA Lamp "Hour of Charm" radio program, broadcast every Sunday evening at 10 P.M. (Eastern War-time) over 125 NBC stations.

Customers would be surprised how dust and dirt hold back light from their reading lamps. Simply washing the bulb and reflector frequently gives 25 to 30% more light. It's an easy way to conserve light and do eyes a favor. Remember: Letting dust collect on lamps is like throwing away the last 35 years of General Electric research . . . which have been making G-E MAZDA lamps better and brighter every year.

"Sub Sighted" DEMANDS QUICK ACTION!

Civilian boats at war are "poison" to lurking subs. Two-way radios, with batteries kept charged by Briggs & Stratton powered generators, flash signals that summon warships or planes for "the kill." One more service stripe for rugged, dependable Briggs & Stratton gasoline engines. Hundreds of thousands are now serving our armed forces through many standard and special applications.

To prevent unnecessary repairs and to save critical materials needed for war uses, it is vital that all Briggs & Stratton 4-cycle, air-cooled gasoline engine users (both military and civilian) provide systematic care to insure maximum efficiency and longer service.

Proper lubrication with the right oil is the No. 1 "must" of the 4-point Service Program which includes periodical inspection—keeping engines clean—and always properly adjusted . . . Keep your engines in top condition. Your nearest dealer or Briggs & Stratton Service Station will gladly help you.

'AMERICAN INDUSTRIAL MARKING CRAYONS

are needed in American industry. There's an 'AMERICAN' marker suited to every job in every factory—a marker that will do the job best and quickest. It's a quality line created in over a century of crayon manufacturing.

Are You Selling These?

"777"—Carpenter's Chalk

Hemispherical in shape, long lasting.

"888"—Railroad Crayons

The favorite of all railroad men.

"400 Series"—Lumber Crayons

Ideal for wet and dry lumber, railroad ties, poles, piling.

"5000"—Marking Crayons

For the Shipping Room—boxes, crates, cartons and barrels.

These are the big-volume markers—every hardware jobber and dealer should stock them. The AMERICAN "Old Faithful" line also includes special markers for hot and cold steel, for glass, cellophane, leather, rubber—in fact an efficient marker for every kind of surface.

☆ Send to Dept. HR-7 for the AMERICAN Industrial Crayon Guide and a catalog.

TRUE TEMPER

For Over

One Hundred Years

"DRESS MAKES THE MAN!"

IN appearance only, for it takes generations and good environment to produce a high type people.

Just so with tools. Finish may improve appearance, but it takes years of background and experience to produce tools of True Temper quality, utility and value.

And that's not all. It takes men who know how, modern factories and modern factory facilities and equipment.

For over one hundred years, skilled workmen trained by their fathers, and their fathers before them, have continued to build into True Temper tools the quality, value and utility that have won for them world's acknowledged leadership.

True Temper factories are models, for they are equipped with the newest and best facilities for rolling, forging, drawing and tempering fine steels.

That's not new. It's an age-old practice in all True Temper plants, with the result that today, millions know by use that the name True Temper has no equal in those vitally important but unseen qualities that produce value, utility and service.

Every fisherman and every golfer the world around, as well as millions of farmers and mechanics know, prefer and demand True Temper.

True Temper tools are sold by leading jobbers in every area of the U. S. A.

DAIRY FARMERS PREFER

RAPID-FLO FILTER DISKS

RAPID-FLO
"GRAND CHAMPION"
QUALITY BUILT
THIS PREFERENCE

IT'S EASIER TO SELL
THE BRAND THAT
MOST OF YOUR
CUSTOMERS WANT

• Everyone knows that dairy farmers are striving to produce more *clean* milk than ever before. Naturally, they are using more care in choosing filter disks—which they use morning and night to filter the milk.

A national survey of dairy farmers reveals that 2 out of 3 prefer J & J Rapid-Flo. Dairymen know that J & J Rapid-Flo filter disks, more than any other brand, provide safe filtration.

This outstanding preference means steady sales for you—at a profit. Maintain a complete supply of popular sizes in three types—Plain, Single Faced and Double Faced.

Freight prepaid on orders of 5 cases or more.

FILTER PRODUCTS DIVISION

Johnson & Johnson

We're looking ahead as looking-ahead-minded dealers are doing too. And there's a reason.

When this war is over, people by the millions will be going hunting again . . . and trap and skeet shooting . . . and target shooting . . . and just plain plinking. Remington guns and ammunition *will* be available then . . . and you'll want your share of the sporting arms and ammunition business.

We're helping you sell post-war Remington guns and ammunition . . . right now! A smashing national advertising campaign is keeping the name "Remington" synonymous in people's minds with America's finest sporting arms and ammunition.

We're doing everything we can to maintain and increase the demand for Remington products after the war. Better keep this in mind when making your plans for the future.

Remington Arms Company, Inc., Bridgeport, Conn.

Appreciation...

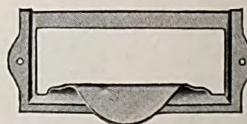

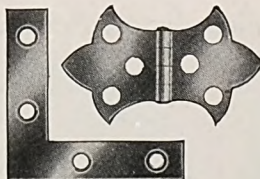

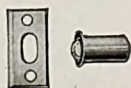

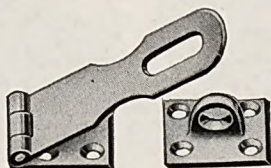

and a Promise from

The biggest customer Corbin ever had . . . Uncle Sam . . . must have priority on his shipments . . . and you Hardware Distributors have been very patient. You may be sure we appreciate *your* cooperation and patience.

After the war is won, we promise you that a more complete line of Corbin Locks and related hardware items will again be flowing to . . . and from . . . the shelves you have so generously stocked in the past.

For the past we're thankful . . . for the present, sorry . . . but for the future we're downright enthusiastic.

"Unbreakable"

Commandos

aid all war workers and farmers

Under order of War Production Board the polish is out; to save labor the heads of our first grade are now Rust-Proofed and black-lacquered, and the **Leather Grip** ground smooth and double-lacquered to retain its velvet, non-slip "feel".

ALL our distributors observe our "Fair Consumer or List Price" and maintain **YOUR** prestige with the "Estwing" tools.

Estwing tools mark YOUR store as Quality Headquarters.

While the **32** Estwing tools will again be polished as soon as permitted, please believe that we are doing our very best under the war regulations.

Shipments can be made of the tools below in the "WF" or War Finish.

USERS GET

- 1—Head that can't fly off, saves all expense, delay and danger from loose or broken handles.
- 2—Perfect, permanent balance.
- 3—Velvet, sole **LEATHER GRIP**, proven most durable, non-slip and comfortable in all weathers and uses.
- 4—**ONE PIECE HEAD-HANDLE** of fine tool steel. Outlasts 40 wooden handles.
- 5—Unsurpassed temper thru Electric Forging and Hardening.
- 6—Perfected over 20 years thru the cooperation of the skilled craftsmen.

WHY we advertise as we do...and how DEALERS can help a good cause

By the autumn of 1941, the answer to the question "What shall we advertise?"—easy, in normal times—had become quite difficult for O. F. Mossberg & Sons, Inc. The Company had become 100% engaged in war work, which fact trade and customers knew and appreciated . . . and the ordinary institutional campaign did not seem quite right.

After Jap bombs dropped on Pearl Harbor, the problem became at once clearer and more difficult. Only a campaign that would benefit the war effort directly could be considered. But . . . *what* campaign?

Executives of manufacturer and advertising agency pondered first one theme and then another, and rejected them all—because they were "too commercial" and did not sufficiently aid the national war effort. And then finally, "Share Your Rifle with Your Neighbor" evolved as a basic copy theme, was considered from all angles, and was accepted . . . and is being continued this year.

How YOU can help...

Dealers everywhere can help this good cause along. How? By sending in the coupon, then by reading the Guidebook and the Questions-and-Answers folder . . . and, finally, by acting as a leader in the community in making pre-induction rifle training available to the maximum number of men.

Translated from the German

A CAPTURED German dispatch, during the last war, is revealing—and just as true today. We quote from March 1943 *The American Rifleman*: "The high percentage of captured Marines wore 'Marksman,' 'Sharpshooter,' or 'Expert Rifleman' badges. This proves the quality of the marksmanship training which these men have received—and the emphasis they place on it. Their marksmanship is remarkable. Once they had broken through our left flank, they settled down behind rocks—and their rifle fire broke up every counterattack we launched!"

If you expect to join our armed forces, start learning as much as you can about rifle shooting NOW! For knowing how to handle a rifle can help you *get ahead faster* in the Services, and—it may save your life. Read this letter, typical of many:

"Last year we had 45 students in our (rifle) club, and many have gone into military service. Practically every one has benefited from his training with us by qualifying as an Expert Rifleman."

Director of Athletics, Ohio.

But—less than 2% of inducted men know anything about rifled arms! That is why

O. F. Mossberg & Sons, Inc., urges *every* owner of a .22 rifle to help teach a neighbor how to use a gun.

Share your rifle with your neighbor

—under nationwide Training Program sponsored by National Rifle Ass'n., Washington, D. C.

This program is intended to train the maximum number of our citizens in the use of small arms. It is invaluable to civilian defense units, guards, etc., and to all prospective service men. For in *this* war, even quartermasters, signal corps and cooks are armed—and must learn how to shoot. And the basic principles of aiming and trigger release are the same for riflemen, artillerymen, pursuit pilots and bombardiers.

So . . . share your rifle with your neighbor

Today, 100% in war work. In normal times, manufacturers of 22 cal. RIFLES, SHOTGUNS, TELESCOPE SIGHTS, TARGO GUNS AND EQUIPMENT.

bor, under the NRA training program. Ammunition is made available by proper government departments through the National Rifle Association. Join or start a local rifle club—*now!*

Help make America a nation of marksmen—*unconquerable!* Mail the coupon for helpful, free booklets—today.

PRODUCING FOOD FOR FREEDOM HAS TESTED AND PROVEN **DEMPSTER** DEPENDABILITY

BEEF AND PORK

POULTRY AND EGGS

DAIRY PRODUCTS

AND CROPS

Water supply is the American farmer's "RIGHT ARM" for increasing the production of fighting food.

Ample water — running water especially — speeds the fattening of all livestock and conserves labor. Eggs are two-thirds water. Running water in the dairy barn increases milk production 10% or more. Irrigation plays an increasingly important part.

America's farmers are grateful to their equipment dealers for untiring aid and service in keeping their water supply equipment in fighting condition. Its extra wartime load, so vital to winning the war, is the supreme test of this equipment.

On the thousands of Dempster-equipped farms, production of food for Freedom is demonstrating the trouble-free service, low operating cost, long life and dependability of Dempster water supply equipment. For 65 years, the **DEMPSTER** name has been a "guarantee of quality, service and fair treatment."

Dempster today is producing fighting tools for our armed forces and also Dempster water supply equipment. Repairs, replacement parts and essential accessories are available for prompt delivery...from convenient Transfer Branch stocks.

"SYMPTOM CHART"—new service aid

Write for your supply of the **DEMPSTER SYMPTOM CHART**, a new booklet that tells farmers how to prevent water supply troubles. They are free. Now is the time to prepare for post-war with Dempster.

FOR POST-WAR BUSINESS
 Concentrate on this COMPLETE LINE of
WISS
 SHEARS, SCISSORS and SNIPS
Quality Leaders Since 1848

As you can well imagine, right now — all our efforts are concentrated toward winning this War.

But when business is again "as usual", traditional Wiss quality will be supported by a sales and merchandising policy that will mean bigger and better profits for you. The manufacture of tools that cut, like shears and scissors, requires a special technique and craftsmanship. A craftsmanship in which we have specialized for 95 years. And plans are in the making now — to guarantee you sound and profitable growth in the lines we manufacture.

Investigate the advantages to you in concentrating on the entire Wiss line — that offers you the most complete assortment of cutting tools!

EVERYTHING FOR FARM BUILDINGS

Prepare today for tomorrow's great farm re-building program

● Wartime restrictions and limitations on farm construction and building equipment has made it impossible for hundreds of your customers to make wanted farm building improvements. Every day builds up a larger backlog of needed barn improvements . . . which are definitely going to be made after the war.

This means a boom in all materials related to farm building improvements at that time. So why not get set and decide now on the barn equipment you are going to sell?

Louden was the first in the barn equipment industry and countless thousands say they are still the leader today. Louden has pioneered and introduced practically every piece of modern equipment found in barns today. Louden has the world's oldest and most experienced barn planning department. Louden has constantly improved its design for over 76 years and the Louden line is the most complete of any.

You can't go wrong deciding that LOUDEN IS YOUR LINE of barn hardware and equipment you are going to sell after the war . . . to satisfy the huge demand for farm building materials.

COMPLETE BARN PLAN SERVICE

There are no quotas, limitations or restrictions on Louden barn plans! We are still able to take care of your needs for this service. Help your customers plan their postwar barn improvements now, so when restrictions are lifted they'll be all set to go. No charge for the world's oldest and largest barn planning service. Louden's barn plan service sells barns and barn equipment.

FAIRFIELD, IOWA

BRANCHES: ALBANY, NEW YORK; ST. PAUL, MINNESOTA; TOLEDO, OHIO

WATER BOWLS

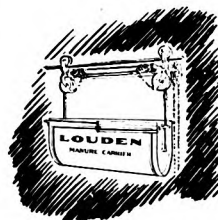

Improved types that are quickly removable, yet so rigidly held, cattle can't rattle them. Improved valve. No splash. No squirt. Keeps floor dry. And many other fine features.

STALLS AND STANCHIONS

A complete line of modern design that give greater comfort, safety, and sanitation. Increase milk flow . . . save labor. Made of high-carbon open hearth steel.

LITTER CARRIERS

The biggest labor saver in the barn. Makes those 365 days of barn cleaning short and easy for farmers. Tubs, track and trolleys that are built for hard service and to last many, many years.

HAY UNLOADING TOOLS

CARRIERS

A complete line of fork and sling carriers. For steel, wood, and cable track. World famous for good service, long life.

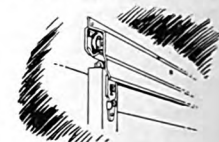

FORKS

The new Iron Claw Fork illustrated is the answer to the farmer's prayer. So many outstanding features, it just about sells itself. It's but one in our complete line of forks.

VENTILATION

Perfectly designed systems that provide plenty of fresh air without drafts. Cupolas, windows, wings, frames, etc.

SLIDING DOOR TRACK

The World's most complete line of the finest door track. Prices for the most discerning buyer.

Now... MAKE MONEY SELLING MENASHA WOOD REFUSE PAILS ● QUICK SALES FAST TURNOVER

It's good business these days to really get behind items not vitally needed in the war effort . . . MENASHA WOOD REFUSE PAILS — for example. You'll find them in great demand right now for general utility use and extremely popular as a replacement for metal Garbage Cans.

They are made of durable kiln dried Western Fir—painted inside and out—handles on both sides. Two welded wire hoops are stapled to staves with steel strap hoop at bottom for extra strength and rigidity. Cover has metal flanged rim to assure snug fit over top of pail. Nested and tied in lots of six. No priority needed.

HARGRAVE TESTED TOOLS

HARGRAVE high grade mechanic's tools have increased sales and profits of hardware retailers for over 60 years. The line includes all standard sizes of Clamps, Chisels, Punches, Star Drills, Washer Cutters, Bench Anvils, Brace Wrenches, Saw Vises, etc.

Right now, war plants are taking most of our output. These heavy demands make it difficult to fill all orders. See your jobber—he'll do his best to help.

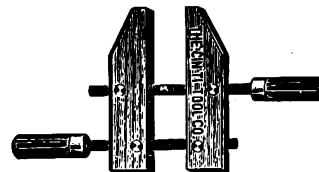

JUNIOR CLAMPS

Junior "C" Clamps. Strong malleable frames, steel screws. 1" to 6" openings.

STANDARD CARRIAGE

Each Standard Carriage Clamp is power tested. Heat treated steel screw with well shaped wing. Sizes 2½" to 12".

HAND SCREWS

Hargrave Hand Screws have hardened steel bearings and "Acme" thread screws. Each jaw tested. Fluted handles.

NO. 640 IMPROVED "I" BAR CLAMP

No ruined joints from slipping with Hargrave Bar Clamps. Designed and constructed to meet the hard every-day grind of production work. Exclusive features of advantage make it the largest selling Bar Clamp. It costs no more than ordinary clamps. We also make lighter and heavier Bar Clamps and 16 patterns of Quick Clamps.

CLAMP FIXTURES

Clamp fixtures for use on pipe and wood bar. Easy to assemble.

—ALLOY STEEL—INDIVIDUALLY TESTED—

HARGRAVE forgings include regular and extra long, Cold Chisels, Rivet Busters, Wood, Wrecking, Floor, Brick and Plugging Chisels, Cape, Half-round, Diamond Point and Round Nose Chisels, Star Drills and Stone Drills, Solid, Drift, Lining-up, Pin, Center and Prick Punches.

They— NEED THE STEEL

— and we at Milcor cheerfully help give it to them . . . This is the first time, in many, many years, that our advertisement in this Directory Issue has not carried an urge to action in the merchandising of Milcor products . . . We have no apologies to offer — and we know that none are necessary. For this is a "steel" war — and every ounce of this product is needed by someone whose "priority" is beyond that of civilian requirements, no matter how important . . . Milcor skill and equipment is now fashioning implements of war out of steel — such highly essential things as portable landing mats, ammunition cases, bombs, and numerous others.

. . . From the "testing grounds" of North Africa comes convincing evidence of the worth of these products — and we pray that this means the war may end sooner, because our fighting men are properly equipped. When Victory comes you will again see the familiar shapes of Milcor peacetime production — as pictured below — better, more complete than before.

Mr. Hardware Dealer . . .

➔ You are doing a splendid job in these trying times — keeping your store open for business — constantly facing a shortage of merchandise — making a repair instead of a sale.

➔ Your job is an important one, perhaps more than you realize. Your sacrifices today, and we know you are making many of them, are stepping stones to a greater tomorrow. Your determination to keep going will go a long way in helping to give the boys jobs when they come home — whether the job is in your store or our factory.

➔ With the important metals, including aluminum, off to war, West Bend Aluminum Co. quickly converted to war production in 1941. You were very patient — you understood — you were patriotic in accepting Uncle Sam's orders which cut off civilian supplies of aluminum utensils.

➔ Mr. Hardware Dealer, we are very proud of you as a home front soldier — you are making a marvelous contribution to the business spirit of America for today and tomorrow!

STILL BATTLING FOR YOU, *Mr. Dealer!*

You are familiar with these famous brands of fishing lines—

**GHOST
STREAMLINE
PRINCESS PAT
AIRLINE (NYLON)**

Although the manufacture of these and other fine Newton lines has practically stopped for the duration, they will be back stronger than ever when we can again get the material to make them.

In the meantime, we want you to know that we stand ready to be of assistance to you in every way we can. Your suggestions as to how we can be more helpful to you will be most welcome and appreciated.

Many dealers have told us that our 1943 Advertising Program was very beneficial to them; that the free distribution of Zodiac Fishing Meters and Wartime Hints Folders has aided them in promoting the goodwill of their customers.

Our plans for the coming year are incomplete, but of one thing you may be sure—we will be "still battling for you, Mr. Dealer!"

Boost your sales of soldering liquid flux and paste and build good-will for your store by featuring self-selling, colorful counter displays of RUBYFLUID. It's the fast acting soldering flux that customers like so well because it's easy to use, produces neat strong soldered unions without fuss or bother, and gives off no harmful or objectionable fumes. Feature them prominently for one week and see how well they move.

Small size Rubyfluid Paste and Flux, so popular with home users, are supplied in self-selling, eye-catching counter displays as illustrated here. Also available in larger sizes. Ask your jobber about them.

Just around the CORNER

... lies the promised land of the Plastic Industry—a giant industry that may only be surpassed by metal production. New markets will seek the versatility, adaptability and salability of plastics with great expectancy. To meet the demands of this market of tomorrow will require a careful consolidation of pre-war and war experience, and the wholehearted enlistment of every research facility and creative ability that this industry can muster. Gits pledges its all to this purpose, and is laying plans for new products and developments that will exceed its past accomplishments in creating and producing plastic products. A pioneer company that will continue to pioneer.

CARRY-LITE
DECOYS!Patented in U. S.
and Canada

It didn't take America's sportsmen long to "catch on" when CARRY-LITE hollow-molded Decoys came along! First introduced three years ago, the sporting goods trade immediately absorbed all we could make of these exceptionally light, remarkably realistic, strongly made, thoroughly water-proof decoys. The trade repeated with emphasis in '41 and '42 . . . and once again this year, thousands of sportsmen from coast to coast will bag their limit with CARRY-LITES!

You can't go wrong with Carry-Lites and neither can the customer. The line includes all varieties of ducks as well as full-size Canadian "honkers".

Order early, from your jobber, to make sure of an adequate supply to meet the demands of your trade.

SAVE TIME—SAVE MANPOWER!

Because its automatic grip enables the worker to hold, start and set up screws in unhandy places with a minimum of time and effort, a Hold-E-Zee screwdriver is a natural for speeding Victory production.

In addition to the patented Gripper, Hold-E-Zees feature high-quality blades, tempered entire length; hand-ground bits; unbreakable, insulating handles in most models. Advertised in "Popular Mechanics", and "Popular Science" to reach war workers.

2. The Farmer

"I never had so little time in my life to take care o' things. It's crops that counts nowdays. So when I git a little time to throw a coat o' paint onto a piece of machinery or one o' the farm buildings, I want it to stay on a long time. That's why I always go to my Martin-Senour dealer. Those finishes goes on fast an' they stay put."

READ THIS

With Spence's Metal Ink you can write with an ordinary steel pen on any metal, glass, china, plastic or in fact any hard surfaces. It dries quickly and stays on, resisting moisture, oils, heat, cold or wiping, yet can be easily removed with Spence's Metal Ink Eradicator. Black, red, blue, green, yellow, purple, brown.

Quarts, Pints, ½-Pints and 2-Oz. Bottles.
